

Washington County Growth Management Law Change Work Team

The work team for this task was essentially the entire General Assembly of the Washington County Council of Governments. As noted under the Meeting Minutes on the GROWashington-Aroostook web site (<http://www.gro-wa.org/agendas-minutes-growth-management.htm>) for this task:

Testimony by Judy East to the rulemaking process on the Growth Management Act was reviewed and approved by the General Assembly of the Washington County Council of Governments (WCCOG). Likewise the Public Parcel Viewer and the Planners Maps were presented for review and comment at the Annual General Meeting of the WCCOG in two successive years (October, 2012, November 2013) as the GIS models were developed and the massive amounts of data were being assembled. Finally all WCCOG member municipalities were informed of the posting of the Public Parcel Viewer and Planners Maps in February of 2014 for their review and input. New data layers are being added to the Planners Maps and outreach is planned in 2014-15 to assist Washington County municipalities in using them.

There are however several individuals from the WCCOG General Assembly and others who worked most intensively on this task listed below.

Name	Organization
Betsy Fitzgerald	Washington County Manager
Judy East	Washington County Council of Governments
Tora Johnson	University of Maine GIS Service Center
Meghan Cranford	University of Maine GIS Service Center
Bev Lamoureux	University of Maine GIS Service Center
Lynn O’Kane	University of Maine GIS Service Center
Catherine Kropp	University of Maine GIS Service Center
Heron Weston	Washington County Unorganized Territories Interim Supervisor
Liz Hertz	Department of Agriculture, Conservation and Forestry
